

# ENVIRONMENTAL LAND MANAGEMENT

**30,000 hectares**  
currently under our  
active management

We act as an extension of your business, adding value by providing you with enhanced knowledge across a range of bespoke services:

**INNS Management**

**Tree risk management**

**Ecology and biodiversity management and consultancy**

**Habitat management**

**Land management advice**

**Health, safety and environmental compliance**

**Project management and supervision.**

We are reliable, adaptable and professional, always going the extra mile to deliver efficient and effective solutions for our clients.

## Advanced and up-to-date research

Our fully qualified surveyors and technicians use the most effective methods and solutions.

## Invasive plant remediations

We employ experienced practical Chartered Surveyors and INNS specialists to deliver bespoke remediation solutions.

## PCA Certified Surveyors in Japanese Knotweed

Fully compliant treatment, recognised by all banks, building societies and lenders to allow lending against a property with IBG.
